

1. Instagram campaign analysis

Campaign: Instagram's **#Reels** creator-focused campaigns.

Main goal: The main objective is to encourage people to create and watch short-form videos while increasing engagement and time spent on Instagram.

Content formats: The campaign uses **short Reels, creator/influencer videos, Stories, trending audio, hashtags, and interactive content.**

What makes it stand out: Short videos are quick and entertaining, while trends and audio make it easy for users to participate. The creator-led format also makes promotional content feel more natural than a traditional advertisement.

2. Flipkart digital marketing campaign – slide content

Slide Title: Flipkart “#BigBillionDays” Digital Campaign

Flipkart used Twitter/X to create excitement around its Big Billion Days sale. Users could tweet with campaign hashtags and emojis to receive customized offers, while image and video ads helped drive people toward the sale.

Key Results

Metric	Result
Impressions / Reach	61.1 million impressions
Engagements	3.16 million
Link clicks	2.8 million
Conversation volume	126,000
Positive brand sentiment	+14%

The campaign also recorded **+11 percentage points in brand favourability, +14 pp in purchase intent, and +19 pp in ad recall** according to the reported Twitter Brand Survey.

Why it was successful: It combined a major sale with interactive content and personalized replies rather than simply showing conventional advertisements.

3. Swiggy food-offer campaign plan

Campaign idea: 🍕 “Student Food Fest – Flat 50% Off”

Element	Plan
Campaign objective	Increase first-time orders and attract college students
Target audience	College students aged 18–24
Main content idea	Short Reels showing students ordering affordable meals with a limited-time discount
Instagram	Reels, Stories, polls, memes, and student influencer collaborations
YouTube	Short influencer videos showing “What I Eat in a Day” using the offer
WhatsApp	Personalized offer messages and referral codes
In-app	Banner showing the discount with a countdown timer
CTA	“Order Now & Save 50%!”
KPIs	App downloads, coupon redemptions, first orders, and repeat orders

4. Comparing two digital campaigns

CRED vs Paytm

CRED	Paytm
Uses humour and celebrity-led advertising to make financial products entertaining.	Focuses more heavily on utility, offers, cashback, and everyday payment use cases .

Often creates unusual, memorable videos designed to generate conversation and sharing.

Uses practical messages showing how users can make payments, recharge, book services, etc.

Which is more effective?

For a **young urban audience**, I would choose **CRED's approach** because humour and unexpected creative ideas can generate stronger recall and social sharing. For users primarily interested in **discounts and practical financial services**, Paytm's utility-focused approach may be more effective.

5. Fictional IPL team ticket-sale campaign

Prompt used

“Write a catchy slogan and Instagram caption for an IPL ticket sale campaign targeting college students. Make it energetic, youthful, and suitable for an Indian audience.”

AI output

Team: Rajkot Royals 🏏

Slogan:

“Stands Mein Aao, Match Ka Josh Badhao!” 🔥

Instagram caption:

🏏 **Rajkot Royals are calling!**

Grab your IPL tickets, bring your college squad, and experience the roar of the stadium live! 🔥

📺 Tickets are selling fast—book yours today!

#RajkotRoyals #IPL #StadiumVibes #CollegeCricketFans

Why it works: The slogan creates excitement around the *live stadium experience*, while the caption uses a direct CTA and youth-oriented language to encourage college students to book tickets.
