

1. Install and activate a WordPress theme

1. Log in to your WordPress dashboard.
2. Go to **Appearance** → **Themes** → **Add New Theme**.
3. Search the official WordPress theme directory for a free theme, such as **Astra**, **Kadence**, or **Twenty Twenty-Five**.
4. Click **Install**, then **Activate**.
5. Open your website homepage and take a screenshot showing the activated theme.

Screenshot to submit: Homepage after the new theme has been activated.

2. Customize the sidebar with widgets

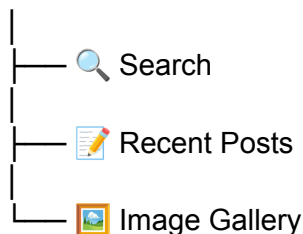

Go to **Appearance** → **Widgets** (the exact location can vary with block themes).

Add these widgets/blocks in the sidebar:

1. **Search** – Allows visitors to search the website.
2. **Recent Posts** – Displays the latest articles.
3. **Image Gallery** – Displays food, products, or other images in a visual gallery.

Suggested order

SIDEBAR

Click **Save/Update**, preview the website, and take a screenshot of the sidebar.

3. Add a contact form

A simple option is **Contact Form 7**, available from the official WordPress plugin directory.

[Contact Form 7 – WordPress.org](https://wordpress.org/plugins/contact-form-7/)

Steps

1. Go to **Plugins** → **Add New Plugin**.
2. Search for **Contact Form 7**.
3. Click **Install Now** → **Activate**.
4. Go to **Contact** → **Contact Forms**.
5. Create or edit a form containing:
 - Name
 - Email
 - Subject
 - Message
 - Submit button
6. Copy the generated shortcode/block to your homepage.
7. Open the website in a new browser tab and submit a **test message**.

Screenshot to submit: Homepage showing the contact form.

4. Add social-sharing buttons

You can use **Sassy Social Share**, a free WordPress plugin that provides social-sharing buttons.

[Sassy Social Share – WordPress.org](https://wordpress.org/plugins/sassy-social-share/)

Steps

1. Go to **Plugins** → **Add New Plugin**.
2. Search for **Sassy Social Share**.
3. Install and activate it.
4. Open its settings.
5. Select the social networks you want to display.
6. Enable sharing on **blog posts**.
7. Save the settings.
8. Open one of your blog posts and verify that the sharing buttons appear.

Example:

Share this post:

[WhatsApp] [Facebook] [X] [Email]

Note: Instagram generally isn't a standard web “share this post” destination in the same way as WhatsApp or Facebook, so choose networks supported by the plugin.

5. Three interactive WordPress plugins

Here are three useful choices inspired by features users expect from apps such as Zomato, Flipkart, and Spotify.

Plugin	Feature	Why it is relevant
WooCommerce	Adds products, shopping cart, checkout, orders, and payments.	Useful for creating a Flipkart-style online shopping experience.
WPForms	Creates interactive forms such as contact, survey, feedback, and registration forms.	Helps collect customer information and feedback.
Site Reviews	Allows visitors to submit and display ratings/reviews.	Useful for creating Zomato-style restaurant, product, or service reviews.

AI prompt used

“Suggest 3 WordPress plugins to make my website more interactive, inspired by popular apps like Zomato, Flipkart, and Spotify. Give one relevant feature and benefit for each plugin.”

Conclusion: These plugins can make a basic WordPress site more interactive by adding shopping, user feedback, ratings, forms, and customer engagement features.
