5-point outline

- **1. Compare prices before buying** – Check different sellers and similar products to find the best deal.
- **2. Use coupons and bank offers** – Look for promotional codes, card discounts, and cashback offers.
- **3. Shop during major sales** – Plan expensive purchases around major shopping events.
- **4. Add products to your wishlist** – Track products and wait for price drops or special offers.
- **5. Avoid impulse purchases** – Make a shopping list and set a budget before starting.

Expanded Point 1

Compare prices before buying:

Before purchasing an expensive product, take a few minutes to compare its price with other sellers and similar products. Check the total cost, including delivery charges, and look at ratings and reviews as well. A slightly cheaper product isn't necessarily the better deal if it has poor reviews or fewer features. Comparing options helps you spend your money wisely and avoid unnecessary purchases.
