

1. Five potential backlink sources for Zomato

For Zomato, I would prioritize websites that already cover **food, restaurants, technology, startups, or Indian consumer trends**. Zomato's own blog currently publishes food, restaurant, technology, and company stories, so these topics provide natural opportunities for relevant backlinks.

Website	Why it is relevant
YourStory	Its FoodTech section regularly covers Zomato, Swiggy, and the Indian food-delivery industry, making it a strong editorial fit.
Inc42	Covers Indian startups and food-tech businesses, so Zomato-related technology or business stories could be relevant.
The Economic Times	Business and startup coverage could link to original Zomato research, company announcements, or industry reports.
Indian Express	Food, lifestyle, and consumer-interest stories could naturally reference useful Zomato guides or research.
Gadgets 360	Its technology audience makes it relevant for stories about food-delivery technology, apps, or new digital features.

Important: These are *potential outreach targets*, not guaranteed backlink opportunities. A backlink should be earned through genuinely useful content rather than simply requested.

2. Backlink prospect spreadsheet – Music streaming app

Below is a classroom-ready prospect list. **DA scores change over time**, and I don't have MozBar installed in this chat, so the scores below should be treated as approximate and rechecked in MozBar/Moz Link Explorer before submission.

Website	Approx. DA*	Content to pitch for a backlink
YourStory	80+	Story about the startup's launch and growth
Inc42	70+	Indian music-tech industry report
Gadgets 360	80+	Review/feature explaining the new app

TechRadar	90+	Comparison of music-streaming services
Hindustan Times	90+	Music trends or consumer survey
The Indian Express	90+	Data-driven article about Indian music listening
Rolling Stone India	60+	Artist playlist or music-culture story
Digit	70+	App/technology feature
Times of India	90+	Music-listening trends and entertainment story
India Today	90+	Music and technology trend article

*Approximate ranges are included for planning purposes, **not verified current Moz scores**. DA is a third-party metric, not a Google ranking factor itself.

3. Backlink outreach email

A useful resource for your college fest audienceA useful resource for your college fest audience

Hello [Name],

I'm [Your Name] from [Food App Name]. I recently came across your college fest website and really liked the useful information you provide for students attending the event.

We've published a guide called "**10 Best Budget-Friendly Food Options for College Students**", which we think would be useful to your audience.

If you find it relevant, could you consider adding it as a resource on your food/lifestyle page?

Link: <https://www.example.com/blog/budget-friendly-food-for-students>

In return, we'd be happy to share your fest information with our audience through our social channels.

Thanks for considering it, and please let me know if you have any questions!

Best regards,

[Your Name]

[Food App Name]

Replace the example URL with your actual article URL before sending.

4. Competitor backlink analysis – Paytm

I would use **Ahrefs' Free Backlink Checker** or **Ubersuggest** for this task because a genuine backlink-profile analysis requires live data from an SEO database. I can't access a logged-in SEO-tool report from this chat, so I won't invent exact backlink counts or referring-domain numbers.

For your assignment, the **three insights to look for** when analyzing Paytm are:

1. **Large number of referring domains:** A major Indian consumer brand such as Paytm is likely to have links from news, finance, technology, business, and partner websites. This indicates that **PR and brand mentions** are important parts of its link profile.
2. **Strong editorial/PR links:** Look for backlinks from established news and business publications. These are valuable because they are usually earned through company announcements, research, partnerships, or news coverage rather than simple directory submissions.
3. **Links from multiple topical categories:** Paytm operates across payments, financial services, shopping, travel, and other consumer services. A varied backlink profile across these subjects can help establish relevance for different sections of its website.

For the final submission: Open the backlink checker, search **paytm.com**, and replace these observations with the actual numbers for referring domains, backlinks, and top referring websites shown by the tool.
