

1. Customer Persona – Instagram

Name: Riya Patel

Age: 20 years

Location: Ahmedabad, Gujarat

Occupation: College student

Interests: Fashion, music, food, travel, photography, and short videos

Digital habits: Uses Instagram several times a day, mainly watches Reels and Stories, follows influencers, likes/shares posts, and discovers new brands through social media.

Main need: Entertainment, staying connected with friends, and discovering new trends and products.

2. Customer Journey Funnel – Swiggy

Stage	What the user does
1. Awareness	Sees a Swiggy Instagram ad, influencer post, or Google search result.
2. Interest	Visits the Swiggy website/app and explores restaurants, cuisines, and offers.
3. Consideration	Compares restaurant ratings, menus, delivery times, and prices.
4. Sign-up	Downloads the app and creates an account using their phone number/email.
5. Conversion	Uses a first-order coupon, selects food, and places their first order.
6. Loyalty	Receives personalized offers and notifications and returns to order again.

3. Three customer personas – College music-streaming app

Persona 1: The Playlist Lover

Name: Ananya

Age: 19

Location: Mumbai

Interests: Bollywood, K-pop, indie music, and creating playlists

Digital habits: Uses Instagram and YouTube daily and streams music several hours a day while studying and traveling.

Motivation: Wants easy-to-create playlists and recommendations that match her mood.

Persona 2: The Social Listener

Name: Arjun

Age: 21

Location: Bengaluru

Interests: Hip-hop, EDM, gaming, and social media

Digital habits: Frequently shares songs with friends and discovers music through Reels and influencers.

Motivation: Wants collaborative playlists and easy social sharing.

Persona 3: The Study Listener

Name: Meera

Age: 20

Location: Pune

Interests: Lo-fi, instrumental music, podcasts, and academics

Digital habits: Listens to music while studying and prefers long playlists with minimal interruptions.

Motivation: Wants personalized study playlists and affordable premium access.

Interesting insight

An interesting insight is that college students don't all use music apps in the same way: some mainly want **social sharing**, while others care more about **personalized playlists** or **uninterrupted study music**. This means campaigns should use different messages for different student segments.

4. Customer Funnel – BookMyShow-like App

Digital marketing action at each stage

- **Awareness:** Run Instagram and YouTube advertisements for popular new movies.
- **Interest:** Post trailers, movie clips, and new-release announcements.
- **Consideration:** Show ratings, reviews, theatre options, and personalized recommendations.
- **Conversion:** Offer a limited-time discount or cashback and make checkout simple.
- **Loyalty:** Send personalized notifications about upcoming movies and offers based on the user's interests.
